

take a vet fishing

**VFW Post 12215
Rancho Murieta, Ca**

It has been proven that fishing is very therapeutic for people to decompress from everyday life and military history.

If you are a veteran and would be interested in fishing whether it be valley lakes and streams, mountain lakes and rivers or open water fishing we would like to help.

Our VFW post committee persons will help arrange fishing outings for veterans who desire to fish and maybe are without the knowledge or equipment to do so.

We will be enlisting the help of volunteers and guides to help with the basics of fishing. If this program is of interest to you, please contact us at VFW12215.org.

We are also seeking sponsors and donations to help defray expenses for this program. Please contact us at VFW12215.org.

Our mailing address is P.O. Box 762, Sloughouse, Ca. 95683.
